

Santa Cruz Catholic School and SKF Technologies L.L.C. dba Silverado Technologies would like to request a waiver in response to the recent decision made by USAC to deny an adjustment to a funding commitment. The decision letter is dated July 10, 2018 and the appeal number with USAC is 106449.

USAC support advised that this type of change would require an FCC waiver because it has been more than 60 days since the original funding commitment decision was made. The associated FCC rule is §54.720. Specifically, we believe it is §54.720(b).

Santa Cruz Catholic School would like to change the committed funding that was approved by USAC for fiscal year 2017.

Santa Cruz Catholic School (BEN: 98346, FCC Registration: 0015405327) has yet to receive services from Silverado Technologies (SPIN: 143028577) for the approved funding request. The associated Form 470 is #170079949, the previously approved Form 471 is #171039641, and the Funding Request Number (FRN) is #1799088952.

All parties at both entity and provider have inherited this project from individuals that are no longer with the organizations. For reasons that are unclear, some of the labor for this project was quoted separately and was not submitted for funding to USAC. Specifically, 10 hours of labor were submitted and approved and another 25 hours were quoted outside and never submitted for funding approval. Both parties agree that we would like to submit the whole 35 hours for funding approval.
